

H. & H. COFFEE AT FOOD SHOW

The Hoffman-Hayman Coffee company are demonstrating the famous H. & H. blend coffee at The Light's Cooking school. Attendants are given an opportunity to sample H. & H. coffee from the booth and of the Hoffman-Hayman company, states R. W. Menger, secretary and treasurer of the company.

Mrs. Chitwood, instructor, also is making use of H. & H. blend coffee in her daily lectures.

"A large amount of the high grade package coffee sold in San Antonio is of H. & H. blend, which shows the appreciation of local users for a different coffee. The unquestionable freshness is assured by the fact that it is roasted and packed right in San Antonio and may be obtained for immediate use," he says.

Mr. Menger adds that the plant of the Hoffman-Hayman company recently has been enlarged by the addition of three roasting machines which he says will double the capacity.
