

Special Hand H Coffee Co. Gift Box Offered June Bride

For more than 40 years H and H Coffee has been a favorite choice of brides beginning their careers as housewives. And that's because H and H is a big favorite with men, as evidenced by the fact that, according to officials of the coffee company, H and H coffees are served in more than half of all San Antonio restaurants and cafes.

As a salute for the June bride to be married at the Texas Theater June 15, the H and H Coffee Co. is presenting a special gift box containing H and H Tea and an assortment of H and H spices and flavorings.

"We wish the June bride and her husband the very best of luck," said G. P. Menger, president of H and H Coffee Co. "And we would like to invite her to follow in the footsteps of countless thousands of brides who have chosen H and H Coffee as the coffee to place on their husband's breakfast and dinner tables.

"For, as in the past," continued Menger, "H and H Coffee today remains the same highest quality. 100 per cent pure blend of the choicest South and Central American coffees. And these rare, delicious coffees are kept vacuum fresh by our exclusive new Flav-O-Tainer package, which is waterproof, airtight and heat-sealed under vacuum methods."
