Giant Iced Tea Glasses Are Premium With H & H Items

A repeat of a popular tea premium exclusive, and 2 new tea bag packages has been announced by Hoffmann-Hayman Coffee co. of San Antonio, for over 25 years packagers of famous H and H tea.

With the purchase of each 3-ounce carton of H and H tea, the consumer receives a choice of three distinctly different and attractive giant iced tea glasses. These glasses, especially selected for their durability and popularity as a selling item, are offered in designs: "Yellow Dot," "Floral" and "Laurel."

The H and H iced tea glass premium offer is displayed now at leading grocers at a special price and will be in effect for a limited time only. Both H and H tea and a choice of three designs in glasses are included in this special price.

It is anticipated that iced tea drinkers will collect several of these patterns as a set for the whole family. Based on experience with the iced tea glass premium in past years, the H and H Coffee co. has again this year chosen only the most popular designs in iced tea glasses.

A new tea item has been added to the Hoffmann-Hayman line of products coincidental with the release of the iced tea glass premium. This season, to meet current demand, H and H tea bags have made their debut on grocery shelves. H and H tea bags are packed in attractive red and white cartons of 16 and 48 bags and are selling at a special price as on introductory offer. The same high quality Orange Pekoe tea, for so many years an H and H trademark in the carton, is also found in H and H tea bags.
